

SUMMARY

Business Intelligence Engineer with 5 years of experience in SQL, ETL, data modeling, and BI reporting. Proficient in Qlik Sense, Power BI, Microsoft Fabric, Python, and Tableau, with a strong focus on analytics, reporting automation, and performance optimization.

WORK EXPERIENCE

1. DHL – Mumbai (IN)

Nov 2025 – Present

Manager – Business Support

- Led the migration of Qlik Sense reporting solutions to Microsoft Fabric and Power BI, modernizing the enterprise BI.
- Managed the end-to-end BI report lifecycle by partnering with business stakeholders to gather requirements, prioritize enhancements, oversee development, testing, deployment, and ongoing production support.

2. Exponentia AI – Mumbai (IN)

June 2024 – Oct-2025

Business Intelligence Engineer

- Optimized Qlik Sense data models and SQL-based ETL workflows, reducing processing time by **55%** and enabling near real-time analysis of **10M+ records** while ensuring reporting accuracy through automated data validation.
- Architected and implemented a reusable **3-tier ETL framework**, standardizing BI development practices and improving scalability, maintainability, governance, and cross-project reusability.
- Collaborated with Finance, HR, and Operations leadership to deliver executive dashboards, including a strategic reporting solution adopted by the Managing Director for executive decision-making.
- Integrated data from Excel, PostgreSQL, and Databricks through scalable ETL pipelines to build unified reporting layers and executive dashboards, improving cross-functional data consistency and reporting efficiency.

3. Crimson Interactive – Mumbai (IN)

March 2022 – May-2024

Business Intelligence Developer

- Served as the primary point of contact (SPOC) for business-critical BI reports, ensuring timely issue resolution, report reliability, and compliance with organizational standards.
- Designed and developed Qlik Sense dashboards for client behaviour and churn analysis using SQL-based data models, enabling stakeholders to identify customer retention trends and support business decisions.
- Gathered business requirements from stakeholders and translated them into scalable BI dashboards and reporting solutions, improving operational visibility and analytical insights.
- Troubleshoot ETL and data integration issues, performed unit testing, and maintained technical documentation to ensure data accuracy and reliable production reporting.
- Collaborated with cross-functional teams in an Agile environment to successfully deliver BI initiatives, earning the "Rising Star" award for outstanding project contributions.

4. eClerx – Navi Mumbai (IN)

March 2021 – March 2022

Data Analyst

- Developed and maintained Qlik load scripts to extract, transform, and load data from multiple source systems for business reporting.
- Created basic Qlik Sense dashboards and reports to support daily operational reporting and KPI tracking.
- Automated data cleansing and preprocessing tasks using VBA, reducing manual effort and improving data quality.
- Performed data validation, and report testing to ensure the accuracy and consistency of reporting datasets.

EDUCATION

MUMBAI UNIVERSITY, MECHANICAL ENGINEERING, MUMBAI

June 2016 – October 2020

Bachelor of Technology in Mechanical Engineering

SKILLS & INTERESTS

- Technical: SQL, Python, PySpark, DAX, Power BI, Microsoft Fabric, Qlik Sense, Tableau, PostgreSQL, Snowflake, ETL, Data Modeling, Data Warehousing, Dashboard Development, Advanced Excel, Jira, Agile.

Certifications

- Microsoft Certified: Fabric Data Engineer Associate | Microsoft | Jun 2026
- Microsoft Certified: Fabric Analytics Engineer Associate | Microsoft | Jul 2024
- Certified Scrum Product Owner (CSPO) | Scrum Alliance | Jul 2025
- Tableau Desktop Specialist | Tableau | Apr 2024
